

REMARKS

This responds to the Official Action of June 10, 2004 and further to the amendment of September 10, 2004. In the amendment of September 10, 2004, applicants provisionally elected claims 27, 32-33 and 44-48, drawn to a method of treatment of Alzheimer's disease by administration of an antibody with traverse.

However, as the Examiner is aware, claims 27 and 32-33 are directed to **Group II**. As a result, applicants wish to provisionally elect **Group II**, claims 27 and 32-33.

Applicants still believe that the restriction requirement is improper for the reasons set forth in the amendment of September 10, 2004.

In view of the above remarks and the amendment of September 10, 2004, it is respectfully submitted that the outstanding restriction requirement is improper and must be withdrawn. Applicants request the examination of all the pending claims in their full scope.

Respectfully submitted,

YOUNG & THOMPSON
